

A Little About the 4th and 5th Planes

By Estelle Roberts 2015

When you get people who have come to the Earth Plane and they come from a place which is beyond the 4th plane, you all know the 4th plane do you? The 4th plane is the Plane of Knowledge. It is the plane where you divest yourself of your astral body. Now while you're in the Summerland and even more so when you're on the Earth Plane, you think your astral body, once you accept the fact that you are spirit, is the be all and end all. After all that's what you're taking forward from the Earth Plane isn't it? So therefore that has to be the perfect being. Well you're wrong. It's only a shell. It's a little bit better than the physical body because you don't have all the problems, but it is just a shell exactly the same.

When you are worthy you enter the 4th plane which is the Plane of Knowledge and you enter the Plane of Knowledge with one individual. That individual is your selected mentor, your main guide. I say your selected mentor and your main guide because you all have people around who are there to help and guide you but you have one person who comes from a higher vibration whose sole purpose is to guide you on your journey. Now their job is not only to guide your journey through the Earth Plane but the job is to guide you through your journey into the 5th plane. So when you go into the 4th plane, the Plane of Knowledge, there's just you and your mentor and you jolly well stay there until you come out the other end qualified. It's just like going to school because you can't get out. Well it's almost like jail really because you can't get out and go back to the Summerland and you can't go forward into the 5th plane. You're just jolly well stuck there! You've got to get an understanding. You've got to get an understanding of the next vibration which you are entering because the next vibration is dramatically different to the Summerland and the Earth Plane.

So all the things that are considered normal in the 5th and 6th planes are completely unknown when you're in the Summerland or the Earth Plane, so you have to go back to school and you have to learn all about the way of life and the way we progress forward. It's a wonderful transition because you then divest yourself of your astral being and the true you almost comes forth. The beauty which is within is almost out in its entirety.

So Estelle once you're in that 4th plane do you come back?

No. You can't come back to the Earth Plane until you pass on to the 5th. Then when you've passed on to the 5th, and I don't think I'll be telling too many tales out of school, but both Maurice and myself have progressed past the 4th plane, so when we come back to teach in the Summerland and when we come back to teach on the Earth Plane, we pick up the astral body that we utilised last time we were here. And we do that because then we have

an immediate recognition by the people that we are speaking to. I'm letting you into something which has not been told before aren't I?

That's exciting. Thank you.

Yes. You see I'm letting you into little secrets. Yes, so shall we keep it to ourselves? No. No knowledge should be kept to yourself because knowledge should be shared.

When you go into the Summerland, when you leave the Earth Plane, you have this physical body removed from you and all that happens there is the silver cord of power is severed and once it is severed your astral being then moves forward into the Summerland.

Now depending upon your level of understanding, depending upon the level of teaching you have received will depend or dictate how you enter the Summerland. A lot of people who are not as enlightened as I hope each and every one of you are, consider that they go to the light because that is what has been taught in churches and in various religious organisations hasn't it? Yes. Go towards the light and that is only because of people's perception. They perceive that if they go to the light they are going to a holy person, they are going to their Saviour and therefore they feel immediately comfortable and then they proceed and once they get there then the light dims and then they can see the ones who surround them. They can see all the friends who they had left, who had left previously on the Earth Plane. Sometimes they see their enemies as well and they say "ooh what have you come for?" Well they do come and the reason they come to meet you is so that you should think "ooh is that a wrong emotion". Unfortunately we don't think that initially because all the thoughts, all the emotions that we had on the Earth Plane follow us forward.

Now I'm going to tell you something which is a little bit frightening. When you leave the Earth Plane you don't increase your knowledge. When you leave the Earth Plane you don't know any more than you knew when you were on the Earth Plane. That's frightening isn't it? And they say "well what happened to all the knowledge I had before?" Well that is slowly reintroduced into your memory but only when you are ready to receive it. So the reason why you are exactly the same, and when I say exactly the same I mean exactly the same. The only difference is if you have a physical impediment that impediment is removed. So therefore if you are blind you can see, if you have lost one leg or one arm it is there for you. A friend who was very close to our circle by the name of Alan, he suffered from a physical deformity and his hands were locked in that position, but when he came to the Summerland he looked at his hands, he opened them and he smiled because that was a wonderful realisation of the beauties which lay before him.
