The Fear of Passing Over

By 2011 Maurice Barbanell

We often hear about the doubt that we have before we pass. Where does that come from? Why do we, who should be enlightened, have doubt?

It's always the essence of the unknown.

Is that only because we are in the physical?

Yes. The doubt disappears as soon as you leave the physical. It's the fear.

It's the fear of the physical. It's crazy.

Crazy it is but it's very rare that a person upon the Earth Plane has no fear of that transmission. From my perspective I can assure you that as soon as it happens the fear disappears. As the Nazarene said all you have to do to conquer death is to die. I always thought that was a very deep statement that he made but then I thought about it afterwards and I thought bloody illogical because once you've done it you can't go back can you? I mean you can't. You've proved a theory but you're not there to tell anybody about it.

Well that's the argument people have. They say nobody's come back to tell us.

Well I am here to dispel that argument. I have come back to talk to you so therefore you have the proof and therefore all that fear and trepidation that you had has to disappear from your being. Alright, will you accept that?

Yes.

I have a lot of agreement and I can guarantee 99 to 1 that if you were put to the point it wouldn't happen but thank you for your perception, or try to have the perception that you have achieved it.
