

Lessons

By 2012 Maurice Barbanell

This physical body requires a little bit of work on it Judith. I thought Mr Rosen (*Mr Rosen is the leader of our healing group*) was a little bit blunt at our healing meeting was he not?

He could have been a little bit more subtle about the cancer Roy has couldn't he.

But he thought he would say it as it is.

Which is his way.

After all there has to be a method of leaving the Earth Plane but you can assure Roy that the associated pain will be manageable.

Thank you.

He's like myself. I never had a problem with leaving the Earth Plane because after all I had as much knowledge and possibly a little bit more, (I don't know, that's not for me to judge) and therefore the perception of leaving the Earth Plane never worried me, not until the last minute, but up until the last minute or two it was something that I was actually looking forward to. Which is a bit of a stupid thing to do isn't it? Why should you look forward to cutting short the opportunity that we came here for? After all we didn't come to the Earth Plane to look forward to leaving. We came to the Earth Plane to have the opportunities which the Earth Plane allows us. So why do we want to leave it!

Well you can't do much if you're incapable.

Incapacitated is the word you are looking for I believe.

Don't forget about the lessons which are given to those who have the opportunity or the job to look after you. You are looking as an insular subject rather than looking as a whole.

They wouldn't get the opportunity to serve would they.

Exactly. Sometimes they succeed. Sometimes they don't. Unfortunately in many establishments the level of care isn't as good as we would like, but when you have individuals who are continually demanding and pushing both physically and mentally, it becomes a little bit wearing does it not and therefore the negativity which occurs occasionally we have to

excuse to a certain degree but there will always be, in those situations, a degree of love which will come through. You will find certain individuals in an organisation who shine.

Have more empathy.

Exactly. And they shine and the fact that they are shining is an example to others and others learn by their example and that's something which a lot of people on the Earth Plane have a tendency to forget is it not?

Yes it's not a priority.

It's all down to self and you consider how it is affecting the individual rather than looking at the bigger picture. After all you have the Mongoloid children, I've heard many times what a travesty this is. How could God being a God of love allow these situations to occur. And yet the individuals who are Mongoloid are the most loving individuals on the Earth Plane. They have no resentment. They share their love child like and they do not expect anything in return apart from love in return. It would be nice if we could all live that way wouldn't it. If we could have the love bug – if you like to call it – that the Mongoloid people have with the intelligence that we have when we are not in that state. That then would then give you a truly wonderful being would it not?

With a little bit of knowledge.

With a little bit of knowledge, but the capacity to share love without question. To share your love without reservation. It's not easy. I have to share love with the people who have taken over the Psychic News and they have totally destroyed the essence which I had spent so many years creating.

I don't know why they do that.

Because of the advertising dollar!

Sold out!

Exactly! It would never have happened if I was still in control but I'm not and therefore it is not something that I even consider in reality. People feel that I should you know. I've moved on and therefore why should I worry about something which is not my responsibility. It was my responsibility while I was on the Earth Plane and while I was on the Earth Plane I did it to the full extent of what I considered was right but it's like so many things in life, once you have moved on you have closed that chapter. There's no point in opening the book and going back over the chapter. You've already read it. Let's go forward and if they mess it up it's not my problem. It's the problem that they have caused and therefore they have to live with it. It has to be part of their aura, part of their karma.

We told you that there would be no problem on the financial basis in the close down of your company did we not Judith?

Yes you did.

And it all depends upon your reality of no problems. The reality is it all has occurred within the confines of your financial capacity.

Yes it has and I have to admit I was never really worried about it.

Well Roy had enough worries for both.

Exactly there was no point in me worrying as well.

Well somebody had to worry about it because if he didn't worry about it then we wouldn't have put things in place. That's another thing you see. I don't know if you've looked at it in that way. If you just blindly accept that things will happen and then when you need help you don't ask (and believe me he was asking! very, very regularly! Almost on a daily basis!) but if that hadn't occurred the help could not necessarily have been given in that way. You see it's a means to an end. I use that as an example and you could equally say because he was part of our group and we had an agenda, that it was in our interest to make sure that it occurred.

Yes.

But we are restricted by the Divine Law that says we can't interfere. And that's a slight variation to the Divine Law that says you've got to spread love. That's the restriction part of the law.

That's the free will part of the law.

Exactly. You can't interfere with the free will and the very fact that you can't interfere with the free will means that unless you are asked, you can't help but once you are asked then you're not interfering with the free will, you are assisting the free will are you not?

Of course because you have been given permission.

Exactly and therefore there's a very fine line between interfering and assisting.. So it doesn't matter if you ask 10 times a day. If you don't ask we can't help.
